All,

**I have BCC Michael, Managing Partner at Linklaters. We await your response once you have read this.**

We are extremely complimentary upon correct due diligence, responsible investigative journalism and reporting information accurately and confirming. We write this email with regards to the defamatory and incorrect information contained on your website and peddling as correct & factual. This information is causing irreparable damage hence your urgent action is requested.

RE: <https://www.offshorealert.com/tag/brian-mutambiranwa/>

- 1) Firstly, **can you remove my name of your website immediately.** It is causing irreparable damage and as of this this morning it is affecting my innocent family. We had no idea that this post was in existence until we were notified by third parties. **Please remove immediately.** I have engaged my corporate lawyers Linklaters (the global law firm) in this matter, and Michael, the Managing Partner is on standby to personally take this head-on & for next actions. This is a polite request.
- 2) Secondly, wouldn't it have been prudent to thoroughly investigate your information before posting and damaging peoples' reputations. We are taking this extremely serious and please do not assume to be some authority without making thorough investigation.....This is extremely malicious.
- 3) [Tarter Krinsky & Drogin](#), [Steve Polyakov](#) , how does a so-called reputable lawyer & law firm harm people without thoroughly investigating and being part of this malicious act. Linklaters will include yourselves in the next action. We have tried calling your office to no avail. It's the typical American stance "Destroy Everything Without Consequences". **It would be extremely appreciative you talk to your clients as a matter of urgency** and get the exact facts. I may be a Black and African gentleman but one thing I am not is stupid. This is extremely wrong in every aspect and racially, morally & professionally corrupt action & practice. I am extremely angry and my wish is in the next 72 hours this is resolve amicably and my name is taken away from this nonsense and I be allowed to live peacefully and not give me a mission to take on which

i am revelling in doing so as I am pissed off right now due to the damage you are causing me daily since we found out about this and we cannot even comprehend damage done without our knowledge to date.

4) Email Below apparently from your lawyers.

- 9) **FACTS AND TRUTH PLEASE** before you start defaming anyone or peddling incorrect information.
